

HEAT Water Boiler Series **HB-8L**

PRODUCT SPECIFICATIONS

Name: Heat Water Boiler Dispenser
Model: HB-8L
Capacity: 8L
Production Rate: 30L/h
Temperature Setting Range: 50-100°C
Rated Voltage(Frequency): 220V(50Hz)
Power: 2500W
Setup Boiling Time: 7-8 minutes
Dimension: 190*240*490mm
Material: Stainless Steel

FEATURES & ADVANTAGES:

- **Convenient size:** Small design allows it to fit in any space without compromising the performance. Ideal size for limited space such as kiosk/food truck/hawker stall.
- **Automated water input:** This carefree refill system make sure you always have optimum amount of hot water to save energy and time.
- **Precise temperature control:** Temperature setting allows you to set optimum temperature for professional coffee/tea brewing.

SUITABLE FOR:

Coffee shop

Beverage Outlet/
Kiosk

Restaurant/
Hawker
Stall

Convenience
Store

Food Truck

HEAT Water Boiler Series **HGSK02A**

PRODUCT SPECIFICATIONS

Name: Heat Micro Computer Controller Water Boiler

Model: HGSK02A

Capacity: 20L

Production Rate: 60L/h

Temperature Setting Range: 45-100°C

Rated Voltage(Frequency): 220V(50Hz)

Power: 3000W

Setup Boiling Time: 7-8 minutes

Continuous Dispensing Amount: 10L

Dimension: 365*390*600mm

Material: Stainless Steel

FEATURES & ADVANTAGES:

- **Large size:** Although it is big in size, this model is able to accommodate high customer flow with its large capacity and continuous dispensing amount of 10L.
- **Automated water input:** This carefree refill system make sure you always have optimum amount of hot water to save energy and time.
- **Precise temperature control:** Temperature setting allows you to set optimum temperature for professional coffee/tea brewing.

SUITABLE FOR:

Coffee shop

Beverage Outlet

Restaurant
